### Last as Long as You Want in Bed By Cornelius Agrippa

You can satisfy your woman. Dr Agrippa's simple five-step method shows how to last as long as you want during sexual intercourse, without drugs or gadgets. The key concept behind the method is that in paying special attention to giving a woman pleasure and to being genuinely present to her, we escape from the anxieties and fantasies in our heads that make us come too quickly. The reward is real sex and greatly enhanced pleasure for both the man and the woman. Dr Agrippa also covers the essential female sexual anatomy that all good lovers need to know (including the controversial G-spot). If you apply the advice in this book you will gradually learn to achieve complete control. With practice you can pass the point at which the risk of coming prematurely is gone and you actually have to go faster to make yourself come when you want to. Along the way you'll have given and been given a great deal of pleasure and your relationship with your woman will be all the better for it. For completeness there is a chapter on mechanical and drug methods of dealing with premature ejaculation - which however the author doesn't think you'll need once you've mastered the method in this book.
