**Statistics** By Robert S. Witte, John S. Witte

Drawing upon over 40 years of experience, the authors of *Statistics, 10th Edition* provide business professionals with a clear and methodical approach to essential statistical procedures. The text clearly explains the basic concepts and procedures of descriptive and inferential statistical analysis. It features an emphasis on expressions involving sums of squares and degrees of freedom as well as a strong stress on the importance of variability. This accessible approach will help business professionals tackle such perennially mystifying topics as the standard deviation, variance interpretation of the correlation coefficient, hypothesis tests, degrees of freedom, p-values, and estimates of effect size.

## **Editorial Review**

### **Users Review**

#### **From reader reviews:**

##### **Carl Vincent:**

What do you in relation to book? It is not important to you? Or just adding material when you require something to explain what the one you have problem? How about your extra time? Or are you busy person? If you don't have spare time to do others business, it is give you a sense of feeling bored faster. And you have spare time? What did you do? Everybody has many questions above. They must answer that question simply because just their can do which. It said that about book. Book is familiar in each person. Yes, it is suitable. Because start from on kindergarten until university need this specific Statistics to read.

##### **Richard Crowe:**

Do you have something that you prefer such as book? The e-book lovers usually prefer to select book like comic, limited story and the biggest the first is novel. Now, why not hoping Statistics that give your entertainment preference will be satisfied by reading this book. Reading practice all over the world can be said as the opportunity for people to know world a great deal better then how they react toward the world. It can't be explained constantly that reading habit only for the geeky man or woman but for all of you who wants to become success person. So , for all of you who want to start examining as your good habit, you could pick Statistics become your starter.

##### **Francisco London:**

This Statistics is great publication for you because the content and that is full of information for you who all always deal with world and possess to make decision every minute. This kind of book reveal it info accurately using great manage word or we can point out no rambling sentences in it. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but tricky core information with wonderful delivering sentences. Having Statistics in your hand like finding the world in your arm, info in it is not ridiculous one particular. We can say that no reserve that offer you world throughout ten or fifteen minute right but this book already do that. So , this is good reading book. Hello Mr. and Mrs. hectic do you still doubt that?

##### **William Reyes:**

You can spend your free time to study this book this e-book. This Statistics is simple bringing you can read it in the area, in the beach, train as well as soon. If you did not include much space to bring the printed book, you can buy the e-book. It is make you simpler to read it. You can save the actual book in your smart phone. Therefore there are a lot of benefits that you will get when you buy this book.
