Winter Jacket By Eliza Lentzski

It all started with a broken classroom heater...

Graduate school prepares you for many things – the rigor of academic life, how to pull consecutive all-nighters, and living off a meager stipend without having to be roommates with cockroaches.

Elle Graft might have made it through six years of graduate school, but she's not convinced she'll survive her first position as an Assistant Professor.

Because for all she learned, graduate school never prepared her for dealing with a student crush.
