Editorial Review

Review

REVIEW OF PREVIOUS EDITION:

"This is an excellent, comprehensive textbook that should be in the library of every practicing psychiatrist. Thorough review of this book is more than adequate preparation for the neurology segments of the general psychiatry and geriatric psychiatry examinations. Practicing psychiatrists will find this book extremely useful to have available when they need to look up a neurology complaint or differential diagnosis or simply want to remind themselves of some aspect of the neurological examination or the presentation and management of common neurological diseases."? The American Journal of Psychiatry
