Pro ASP.NET MVC 4

By Adam Freeman, Steven Sanderson

Pro ASP.NET MVC 4 By Adam Freeman, Steven Sanderson

The ASP.NET MVC 4 Framework is the latest evolution of Microsoft's ASP.NET web platform. It provides a high-productivity programming model that promotes cleaner code architecture, test-driven development, and powerful extensibility, combined with all the benefits of ASP.NET.

ASP.NET MVC 4 contains a number of significant advances over previous versions. New mobile and desktop templates (employing adaptive rendering) are included together with support for jQuery Mobile for the first time. New display modes allow your application to select views based on the browser that's making the request while Code Generation Recipes for Visual Studio help you auto-generate project-specific code for a wide variety of situtations including NuGet support.

In this fourth edition, the core model-view-controller (MVC) architectural concepts are not simply explained or discussed in isolation, but are demonstrated in action. You'll work through an extended tutorial to create a working e-commerce web application that combines ASP.NET MVC with the latest C# language features and unit-testing best practices. By gaining this invaluable, practical experience, you'll discover MVC's strengths and weaknesses for yourself—and put your best-learned theory into practice.

The book's authors, **Steve Sanderson** and **Adam Freeman**, have both watched the growth of ASP.NET MVC since its first release. Steve is a well-known blogger on the MVC Framework and a member of the Microsoft Web Platform and Tools team. Adam started designing and building web applications 15 years ago and has been responsible for some of the world's largest and most ambitious projects. You can be sure you are in safe hands.

Users Review

From reader reviews:

Michael Brown:

Do you have favorite book? Should you have, what is your favorite's book? E-book is very important thing for us to find out everything in the world. Each publication has different aim or even goal; it means that e-book has different type. Some people experience enjoy to spend their time for you to read a book. They are really reading whatever they acquire because their hobby is actually reading a book. How about the person who don't like looking at a book? Sometime, man feel need book whenever they found difficult problem or even exercise. Well, probably you should have this Pro ASP.NET MVC 4.

Joe Vizcarra:

Hey guys, do you wants to finds a new book you just read? May be the book with the title Pro ASP.NET MVC 4 suitable to you? The actual book was written by popular writer in this era. Typically the book untitled Pro ASP.NET MVC 4is the main one of several books that will everyone read now. This specific book was inspired many men and women in the world. When you read this publication you will enter the new dimensions that you ever know prior to. The author explained their strategy in the simple way, therefore all of people can easily to recognise the core of this e-book. This book will give you a large amount of information about this world now. To help you to see the represented of the world on this book.

Rosa Flint:

Reading a book to get new life style in this yr; every people loves to go through a book. When you read a book you can get a large amount of benefit. When you read guides, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what types of book that you have read. If you want to get information about your review, you can read education books, but if you act like you want to entertain yourself read a fiction books, this kind of us novel, comics, and also soon. The Pro ASP.NET MVC 4 provide you with a new experience in looking at a book.

Mildred Timm:

As a student exactly feel bored for you to reading. If their teacher asked them to go to the library or make

summary for some book, they are complained. Just tiny students that has reading's soul or real their passion. They just do what the trainer want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading is not important, boring and can't see colorful photographs on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this Pro ASP.NET MVC 4 can make you sense more interested to read.
