### **Editorial Review**

#### Review

"Will Genocide Ever End? contains short essays and comments by experts working on the cutting edge of some of the most difficult territory of human social interaction. The contributors come from a variety of disciplines, experiences, and areas of professional expertise, but they share one personal concern that brings them together. Over many years, all have observed genocide and its dark dimensions, and more than anything, they hope their expertise will never again be necessary." --From the Introduction by Stephen D. Smith

"Will Genocide Ever End? is a valuable primer in the terrible and persistent problem of genocide in human society. The contributors shed their academic garb and intellectual jargon to share plainly what they know about the causes, perpetration, and prevention of genocide. This book will serve to alert and inform the consciences of students, politicians, activists, and citizens alike, enabling us all to become more aware of the risk of genocide and more able to prevent it." Hugo Slim Reader in International Humanitarianism, Oxford Brookes University, United Kingdom

"These short essays by some of the most distinguished specialists in genocide studies provide an excellent introduction to the subject. Clearly organized, focused, and authoritative, Will Genocide Ever End? will be valued by readers eager to understand the ignoble past of genocide and to consider useful approaches to combating it today." --Frank Chalk Co-Director, Montreal Institute for Genocide and Human Rights Studies, Concordia University, Canada

"Will Genocide Ever End? provides an invaluable, insightful, and impressive series of well referenced essays prepared by leading experts, discussing a range of issues around this dark side of humanity. One author writes that genocide is "endless." The wisdom and conviction displayed within these covers lead me to believe that it need not be." --Margaret Cox Professor of Forensic Archaeology and Anthropology and Chief Executive of the Inforce Foundation, Bournemouth University, United Kingdom

"Good bibliography, excellent index, and a unique listing of some genocide Web sites...highly recommended. Suitable for all academic and educated general audiences." --A.S. Rosenbaum, Choice, April 2003
