# Java WebSocket Programming (Oracle Press)

By Dr. Danny Coward

Java WebSocket Programming (Oracle Press) By Dr. Danny Coward

Master Application Development with Java WebSocket

Build dynamic enterprise Web applications that fully leverage state-of-the-art communication technologies. Written by the leading expert on Java WebSocket programming, this Oracle Press guide offers practical development strategies and detailed example applications. *Java WebSocket Programming* explains how to design client/server applications, incorporate full-duplex messaging, establish connections, create endpoints, handle path mapping, and secure data. You'll also learn how to encrypt Web transmissions and enrich legacy applications with Java WebSocket.

• Develop Web applications using the Java WebSocket API
• Create and publish annotated and programmatic endpoints
• Manage the lifecycle events of WebSocket endpoints
• Maintain reliable connections across the endpoint lifecycle
• Manage synchronous and asynchronous messaging
• Define encoding and decoding strategies for complex messaging
• Configure message timeouts, size limits, and exceptions
• Map message paths and route incoming URIs to Web containers
• Secure data, authenticate users, and encrypt connections

Editorial Review

About the Author

Danny Coward is a Chief Architect and Web Architect at Oracle. He is the Specification Lead for the Java API for WebSocket for Java EE and Java SE/JavaFX. Coward's work leading WebSockets at Oracle makes him the leading expert on Java WebSocket programming. Coward has specialized experience in all aspects of Java software?from Java ME to Java EE to the founding of the JavaFX technology.

Users Review

From reader reviews:

Bobbie Wallace:

The particular book Java WebSocket Programming (Oracle Press) has a lot of knowledge on it. So when you read this book you can get a lot of profit. The book was written by the very famous author. This articles author makes some research prior to write this book. This kind of book very easy to read you will get the point easily after looking over this book.

Sylvester Wedding:

People live in this new time of lifestyle always aim to and must have the spare time or they will get lot of stress from both everyday life and work. So , when we ask do people have spare time, we will say absolutely sure. People is human not just a robot. Then we inquire again, what kind of activity are there when the spare time coming to you actually of course your answer may unlimited right. Then do you try this one, reading textbooks. It can be your alternative within spending your spare time, often the book you have read is definitely Java WebSocket Programming (Oracle Press).

James Rouse:

The book untitled Java WebSocket Programming (Oracle Press) contain a lot of information on it. The writer explains your girlfriend idea with easy means. The language is very straightforward all the people, so do not really worry, you can easy to read the item. The book was authored by famous author. The author provides you in the new period of time of literary works. You can actually read this book because you can continue reading your smart phone, or model, so you can read the book in anywhere and anytime. If you want to buy the e-book, you can available their official web-site along with order it. Have a nice study.

Walter Son:

As a pupil exactly feel bored to reading. If their teacher expected them to go to the library or to make summary for some e-book, they are complained. Just tiny students that has reading's heart or real their

pastime. They just do what the teacher want, like asked to go to the library. They go to presently there but nothing reading really. Any students feel that examining is not important, boring and can't see colorful pics on there. Yeah, it is for being complicated. Book is very important to suit your needs. As we know that on this period of time, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore , this Java WebSocket Programming (Oracle Press) can make you sense more interested to read.
