Quality Assurance for Textiles and Apparel 2nd Edition By Sara J. Kadolph

Textile Quality Assurance is the process of designing, producing, evaluating, and checking products to determine if they meet the desired quality level of a company's target market. *Quality Assurance for Textiles and Apparel*, second edition, reflects the industry's best practice and most practical efforts to provide products of a consistent quality to meet customer's needs. With updated information on technological advances, the second edition emphasizes the importance of incorporating product quality from the merchandising and design stages through production, delivery and retailing.

Features

- Discussion of body scanning as it relates to assessing body shape, sizing, and fit
- Current information about standard test methods, documents, and practices
- Student activities and review questions at the end of each chapter

Instructors, contact your Sales Representative for access to Instructor's Materials.
