This was most definitely a modern day fairytale romance. Instead of an ordinary girl falling for a prince, it's an ordinary girl falling for a famous singer/teen heartthrob. And I absolutely loved it. It had so much more depth than your typical fairytale. Sophie used to be full of life, someone who never doubted that dreams come true. Ever since her mom died, she has never been the same. Witnessing this heartbroken, lost young woman so scared of love was difficult, but it was also heartwarming to see someone try so hard to get through that wall she has put up for so long. I think a lot of us can relate to Sophie. Whether we've gone through a tragedy like she has or not, we stop believing in fairytales and dreams as we grow older. This story made me believe in those things again. Just because we reach a difficult point in our lives, it doesn't mean we should stop reaching for our dreams. Thank you, Jayme Arden-Silliman, for reminding me of this and for writing such a fantastic story. *Written in the Stars* will have you wanting to hold the people you love a little closer, open your heart to others, live life to the fullest, and fall in love either for the first time or all over again. It is an absolute must-read. And if my eyes are not deceiving me, there will be a sequel, which I practically squealed about, 13-year-old-Sophie style.
