Case-Based Pathology and Laboratory Medicine By Nagy Mikhail M.D.,
Stephen Shea M.D., Jana Raskova M.D., Frederick C. Skvara M.D.

Case-Based Pathology and Laboratory Medicine is a brand new text that uses over 20 real patient cases to teach students and junior doctors to recognise and understand significant diseases and their complications from a pathology perspective.

Each case presents relevant clinical data, in full colour throughout, and guides you through to a diagnosis via multiple-choice questions. The MCQs are flagged throughout as Basic, Intermediate and Advanced.

Detailed answers are provided with a final diagnosis and synopsis to each presented case. Further information is given to help interpret results and tables and many lab tips are included.

Case-Based Pathology and Laboratory Medicine is a perfect test-yourself revision resource for medical students and junior doctors. Excellent for clinical attachments as well as exam revision and preparation for OSCEs.

Pre-publication review

“The book is really good. It makes pathology easier and more fun to study”
4th year student, Manchester
