## **Editorial Review**

From Library Journal

The many books about how to write poetry often fail because they stress structure and technique, contributing to the assumption that you can't teach anyone to be a poet. Fox takes a different approach. A certified poetry therapist, he uses poetry as a mode of healing. Fox works with children, seniors, people in life transition or suffering life-threatening illness, and others. Clearly, he succeeds. His work shows the aspiring poet how to give birth to poetry and how to cultivate and harvest its value to the writer's healing process. Despite Fox's emphasis on poetry as therapy, the student poems are full of fresh expressions and exciting images. Writing of her son, a woman says, "Adam holds the belly of his new plane,/ the light in his eyes a wingspan of possibility." Among the volume's many strengths are its frequent examples. Excellent exercises are included, as are a list of selected readings and a list of resources for learning more about poetry therapy. Highly recommended for public libraries as well as school and academic libraries where arts therapy is studied or practiced. Judy Clarence, California State Univ. Lib., Hayward
