Captivated: BWWM By Perri Forrest

London Tanner's day just went from bad to worse.

She's fresh off the weekend and shows up to the job that she loves, and has dedicated herself to for the past 12 years. In the middle of checking emails, and preparing to begin her day, Carter Hampton enters her office space and requests her presence in his office. Once there, she finds herself on the other end of accusations of fraud that she firmly denies. After arguing her point for what seems like forever, she hears the words, "Today is your last day", pour from his mouth.

Defeated and broken, London decides to drop a bomb of her own, prior to her departure. Having had the last word, she leaves the building in tears and with her final paycheck in hand. With nowhere else to turn, she heads into the arms of the only person she knows can love her past the devastation.

London's boyfriend Brandon wants her to move to Southern California to begin a life with him, and now that she has no job to return to, she can do just that. However, as London prepares to leave the old life behind and enter a new phase, the unexpected occurs...the job wants her back.

Reluctantly, she takes them up on their offer. She still has unfinished business with the company she's given her all to—having been in their employ since she was eighteen. It's the only job she knows. However, London soon finds out that it's not just the company that wants her, but the very person to crush her world in the first place.

Carter Hampton reenters her life. It's not like she hadn't noticed him before, but now even more so...He's charismatic, attractive, and extremely wealthy—and his goal is to capture London's heart.

Not only does she have to deal with matters of the heart, there is also conflict within her own family that she must confront as well.

Her life becomes a tangled web that she must unweave. Will she figure it all out, or will the complexity of it all hold her captive?

This is BWWM fiction.

Editorial Review

About the Author

Perri Forrest was born in Cincinnati, Ohio, but raised in sunny California. She describes herself as a trilogy: A businesswoman who navigates through Corporate America flawlessly from Human Resources to Project Management, a Sociologist with a burning desire to save the world, and an Author who loves writing life into fiction. While her pen and paper consummated when she was pre-teen, her written words would not be seen until a long time after. Perri's dream was always to write a book, but she didn't take steps to do so out of fear that readers wouldn't be interested in what she had to say. When she suffered the devastating loss of her first cousin, in 2006, with a few months left to complete my undergraduate studies, she barely made it through. A good friend not only suggested that she begin blogging, that friend gifted her with a newly designed blog platform, which birthed her first e-journal. The blog opened a whole new world for her and served as a place she could express candidly, about life. When her blog was discovered and she began receiving compliments on not just her candor, but on her writing style, it fueled the fire, and thoughts of penning a novel resurfaced. The lingering doubts of, "Who would even want to read your work?" were replaced with, "Worry about an audience later, and just do it." And that she did. Perri writes what she likes to call, "Multicultural Mayhem". She labels it as such because you never know what will happen her my stories, but what is certain; there will always exist a multicultural cast who bring with them plenty of Sex, Cursing and Sass. Oh...and the occasional Happily Ever After. Perri loves producing intimate moments that aren't just about sex. There's heat, and there's passion. But, it's a sexy kind of intimacy that she explores through her characters. She enjoys seeing them connect on both intellectual and physical levels. That connection allows her to build erotic moments, with purpose, and satisfaction. She plans to perfect her craft and delve into other genres, down the line. With "Amazon bestselling author," added to her list of credits, she is in the writing game for the long haul and has no intentions of putting down her pen any time soon.
