Collision Repair and Refinishing: A Foundation Course for Technicians By Alfred Thomas, Michael Jund

This new book covers all the necessary tasks for gaining knowledge of collision repair and refinishing as outlined by NATEF. In-depth coverage includes structural and non-structural analysis and damage repair, welding, painting and refinishing, paint chemistry, sacrificial coatings for corrosion resistance, and more. The logical progression of topics and easy-to-understand style help convey the professional knowledge and technical know-how that readers need to employ on the job.

Editorial Review

Review

"It is perfect for the incoming future technicians. The author's approach is well organized, the tone is good. He does not use words that are above a person's head and things flow together well. I like that the author keeps it basic for the student, and the freshness of the information."Mike JanovskyHennepin Technical CollegeEden Prairie, MN

"The strengths are the research put into obtaining this information. Also the experience from the author and your research organizations: I-CAR, tech. colleges, and ASE involvement."

"Organization and readability are good. Topics are explained clearly. The topics follow a logical sequence and flow well. They follow the order that they would be learned and applied. Good points: Very thorough; the illustrations seem good; it's not product specific and refers the reader to use tech sheets and manuals for specific applications."The author does a fine job and I find his writing style easy to read. The top strengths, as I see them, are the thoroughness, that it is well written, and the depth to which the topics are explained."Steve WhitePortland Community CollegePortland, OR

About the Author

Alfred Thomas is an associate professor of collision repair at Pennsylvania College of Technology in Williamsport, Pennsylvania. He is also a contributing editor for "Auto Body Repair News," a monthly collision repair technical journal. Mr. Thomas is an ASE Master Certified Collision Repair and Refinishing Technician and an I-CAR Platinum™ technician. His educational background includes a Master of Arts degree from Eastern Michigan University, a Bachelor of Science degree from Trevecca Nazarene University, and an Associate of Arts degree from Washtenaw Community College.

Michael Jund taught collision repair for many years at Scott Community College, where he also served as department coordinator and dean of applied technologies. He graduated from the University of South Dakota with a Bachelor of Science degree, and he earned a Master of Science degree from Western Illinois University. Mr. Jund is an ASE Master Certified Collision Repair and Refinishing Technician and an I-CAR Platinum™ technician. He now teaches part-time for I-CAR and performs aluminum and steel welding qualification training and testing as well. Mr. Jund has also been an evaluation team leader for NATEF.
