### Space Cadet By Robert A. Heinlein

This is the seminal novel of a young man's education as a member of an elite, paternalistic non-military organization of leaders dedicated to preserving human civilization, the Solar Patrol, a provocative parallel to Heinlein's famous later novel, *Starship Troopers* (which is about the military).

Only the best and brightest--the strongest and the most courageous--ever manage to become Space Cadets, at the Space Academy. They are in training to become part of the elite guard of the solar system, accepting missions others fear, taking risks no others dare, and upholding the peace of the solar system for the benefit of all.

But before Matt Dodson can earn his rightful place in the ranks, his mettle is to be tested in the most severe and extraordinary ways--ways that change him forever, from the midwestern American boy into a man of the Solar Patrol.

### Editorial Review

#### Review

“The lively story of a group of boys--Matt and Tex, from Terra; Oscar, from Venus; Pierre, from one of Jupiter's moons; and others--who train to uphold the peace of the solar system. This account of their training and their subsequent adventures is good, colorful fiction by an author who can write it ably and entertainingly.” ?*Chicago Tribune on Space Cadet*

“Throughout the story there is a constant stream of Heinlein's noted wit and satire, superbly told . . . The Hugo Award committee need look no further.” ?*San Francisco Chronicle on Glory Road*

“Heinlein...wrote adventure stories grounded in credible scientific speculation. Even the wonderful stories collected here feature his trademark cool reasoning. . . .Superb stories - old friends, really - that are well worth the book's price.” ?*Booklist on The Fantasies of Robert A. Heinlein*

#### From the Publisher

Like many people, I go way, way back with Heinlein. My very favorite book (and one that stands out in my mind--and with much affection--to this day) is *Tunnel in the Sky*. I really, really wanted to go off to explore new worlds with a covered wagon and horses, like the hero does at the very end of the book. But one of the nice things about Robert Heinlein is that he's got something for everyone. One of my best friends has a different favorite: *Podkayne of Mars*. Go figure.

#### From the Inside Flap

Only the best and brightest -- the strongest and the most courageous -- ever managed to become Space Cadets. They were the elite guard of the solar system, accepting missions others feared, taking risks no others dared, and upholding the peace of the solar system for the benefit of all.

But before Matt could earn his rightful place in the ranks, his mettle would be tested in the most severe and extraordinary ways -- ways that would change him forever but would still not prepare him for the alien treacheries that awaited him on strange worlds far beyond his own.
